(BY THE NEW ASSOCIATED PRESS-P.M.)

PITTSBURGH (Pa.), May 16.—The Westinghouse Machine Company, as a voluntary movement, posted notices announcing that, commencing tomorrow, its 1400 employees will work but nine hours a day, instead of ten as heretofore. The week's work will be fifty-four hours, and all over time will be paid for at the rate of a time and a half. The increase is in strict accordance with the international machinists' association's scale.

Bargain=Friday

And Continuation of Sale of White.

These two important factors join forces this Friday in making it one of the most important Bargain events you have yet known.

"Our Sale of White" has proven the most successful sale ever launched in Los Angeles—such dainty, desirable undermuslins were never before shown at such attractive prices.

Now Friday's bargain flood gates are thrown wide open, making a combination that cannot fail to create a stir among all prudent buyers.

What we advertise "some" others attempt to duplicate. When you investigate the efforts of such mercantile second-fiddlers they will tell you, "Why, we're just sold out," or "That was a mistake in advertising."

The Broadway has everything it advertises and always produces advertised goods at the price advertised—mistake or no mistake.

# THE LAND.

Orchard, Farm, Garden, Rancho and Stockyard.

(W. J. JEFFREY, AGRICULTURAL EDITOR.)

NOTES AFIELD.

CAREFUL observers of crop conditions, says the grain crop

Baldwin's ranch, near Pueno, and

other lands adjacent, is the heaviest

but one that has ever been produced

in this locality. I drove all over that

section one day this week in search of

Russell thistle, and had a fine opportunity

to observe the thousands of acres of

growing wheat lying between the

fruit orchards of Covina and the

hills south of Pueno. It is a sight to

do the eyes good to see these magnificent

fields of wheat just blossoming

and now practically made, for the

agencies of cereal crops in California

are few, after they reach the present

stage of development. It would seem

to get a drive out to the eastern end of

Baldwin's ranch, on the Los Angeles

and Pomona road, to one who would

enjoy the beauty of waving wheat

again in the almost limitless vista seen

so often in the Dakotas. The late-

coming barley in that valley is looking

well and scarcely a leaf is out of place.

Not only is the wheat crop in this

section of the state in a fine way, but

it will not produce a hay crop from fair

to abundant. This is a springtime in

southern California which brings to

an outburst the favor of the weather and

the odor of wild flowers and the color

of ideal landscape.

The Power of Insects.

Caterpillars often stop great rail-

road trains by crawling along the iron

so thickly that the driving wheels of the

engines slip around, as though the

tracks were oiled. There are cases on

record where caterpillars covered the

rails and the ties in an inch deep. It

is safe to say that the adjacent forest

was defoliated for miles each side of

the road, and that every living

plant had felt the influence of this

devastating army.

The gray moth has been a power in

politics—at least in the deliberations

of the Massachusetts "House of

Representatives in general court as-

sembled," as that State's legislature is

called. For years this moth has been

the subject of debate, the object of

destructive enactment, the recipient

of expensive appropriation and the

cause of much profanity, and yet it

is not subdued.

We read of devastating swarms of

locusts and grasshoppers, and of the

incubation of the visitations of

mosquitoes, flies, fleas and a

hundred other pestiferous infestations

from the kingdom of insects, but do

not always consider, as we of California,

that these pests have other means of

stopping the wheels of commerce and

bringing loss and annoyance to man

than the kind of means that of physical

contact with us.

There are varieties of scale which,

if left unchecked, have the means of

tying up refrigerator cars, making the

whirl of the locomotive wheels less fre-

quent, and bringing the farm wagon

whole lot to a standstill. No preceding

kind of pest has been so thoroughly

ware of these pests, for they have al-

ready gotten the better of more than

one community in Southern California.

More than one citrus grower has been

driven to the verge of ruin by the

scale which has been so thoroughly

ware of these pests, for they have al-

ready gotten the better of more than

one community in Southern California.

crop was only fair in quality, but the trees look so vigorous that they will produce walnuts of the best

## THE PUBLIC SERVICE—OFFICES AND COURTS.

## SUMMARY OF THE DAY.

Some doubt has arisen regarding the power of the city to enforce the rate for water, recently established against the principal consumers because of old contracts.

City employees are on the qui vive lest their official heads be severed in the campaign of retrenchment just inaugurated.

The Health Office yesterday learned the woes of people who have neighbors that keep chickens.

A. W. Forester, clerk of the criminal department of the Superior Court, who is now in Beaumont, Tex., has written an interesting letter on the oil situation there.

The suits begun by Miguel Erreca against Maria Meyer of Santa Fe Springs have been settled by Judge Allen. Plaintiff wins one suit and defendant the other.

Gregorio Barboza, slayer of Fredor Bush in "Happy Valley," was last night convicted of manslaughter.

Mrs. A. Martin, who has figured conspicuously in lawsuits, is accused by the police of having been unlawfully kept in a rooming house.

B. C. Taylor, who has a double who gets him in trouble, has been in the police court because the other man rode on the sidewalk in violation of the city ordinance.

## AT THE CITY HALL.

## ZANJA WATER RATE NOT ACCEPTABLE.

CORPORATIONS THINK THE CITY WANTS TOO MUCH.

Previous Contracts Cause Doubt as to Enforcement of the City Council's Resolution—Much Water Practically Given Away.

An interesting time is promised when collections are made for the use of Zanja water as provided by the City Council two weeks ago.

Not only will the large companies have to pay for the water used in their factories, but also for the water used in their homes.

It is interesting to note that the rate for water at the rate of 3 cents per gallon to be estimated upon the horse power produced to run the machinery.

EPISODE IN THE BIG BEAUMONT PETROLEUM FIELDS.

Interesting Letter From A. W. Forester, Clerk of the Criminal Court, Who is now in Texas Trying to Make Big Money in Oil.

Arthur W. Forester, clerk of the criminal court, who is now on a leave of absence in Beaumont, Tex., looking for big things in oil, has written an interesting letter to Ballif William Downie, describing the country and telling of what he has found in the much-talked-of petroleum section.

"Beaumont," he says, in his letter, which bears date of May 10, "is the richest town I ever saw. Until recently it was nothing else than one of those sleepy Southern towns you read about."

## COURTHOUSE NOTES.

BRITISH MISCELLANEOUS. SMITH CASES. The examinations of William T. Smith, charged in two complaints of obtaining money on false pretenses from the Bank of California by "gold brick" schemes, were continued by Justice James yesterday.

George P. Adams, Esq., of the defendant's attorneys, Smith, who is an attorney, has already been bound over to the Superior Court to answer to indictment.

HARROWERS' PLEA. SMITH DIVORCE. Annie L. Smylie was granted a divorce from her husband, H. Smylie, by Judge Smith yesterday on the grounds of cruelty and failure to provide. Evidence was introduced to show that the husband was a man who was married and married to his wife and was always accusing her of extravagance. She married him on his representation that he was possessed of much property. She was a school teacher in Iowa when she took the fatal step.

PLASTER WANTED. The Swedish Methodist Episcopal church of this city has petitioned to mortgage its property for \$1250.

OIL FOR SPRINKLING. The Board of Supervisors let a contract yesterday for a lot of oil for use in the city for oil at 70 cents. This oil will be used for the coming season to sprinkle roads throughout the city.

WILLIS' TRIP. Deputy District Attorney Frank R. Willis leaves for San Francisco today, at the personal invitation of Willis, to attend to the present at the launching of the Ohio.

WHAT'S IN A NAME? The Joseph Schlitz Brewing Company of Wisconsin is suing Albert C. Bullock, proprietor of the Holbeck bar, to recover damages in \$1000. It is alleged that on the 14th inst., and for two years past, Bullock has been selling over his bar a beer in imitation of Schlitz beer.

AT AUCTION. On Tuesday afternoon at 2 o'clock the county will auction a lot of land near the intersection of the Court house steps. The machinery to be sold comprises an electric pump, an electric motor and a water pump.

NEW NOVELTY WORKS. The Pasadena Novelty Company incorporated yesterday with a capital stock of \$25,000, divided into 10 shares, of which amount \$15,000 has been subscribed. The directors are H. J. Stuart, G. W. Tuttle, T. A. Barnes, M. E. Irvine and A. W. Maxwell, all of Pasadena.

PIAT JUSTICE. A motion will probably be argued today for a new trial in the case of Mrs. Alice L. Stockwell against the Mutual Life Insurance Company of New York and Mrs. Marjorie A. Wiesen, wherein Judge Allen recently gave judgment for the plaintiff.

IF A NEW TRIAL is denied, the matter will be taken to the Supreme Court. Mrs. Stockwell, who is the plaintiff, is a woman who is a widow and has been married to her husband for many years.

## THE OFFICERS WERE POSITIVE HE WAS THE SAME MAN THEY HAD SEEN BEFORE.

Why, Your Honor," said one of them, "he has the same pucker in one corner of his mouth."

Taylor produced witnesses and the books of the electric company, however, to show that at the hour his double was arrested, he and another man were mending a "break" on Main street.

The court ordered his discharge. Taylor thinks the man most to be evaded in history was the Phariase who played, "Thank God, I am not like other men."

Witness Disappeared. Mrs. A. Martin, who became notorious in the "Dr. Hastings" abortion case, and later added to her fame by being arrested for perjury, is again in the public eye. She is accused by the detectives of helping to spirit away a witness wanted in the Police Court.

Mrs. Martin's brother, E. J. Simmons, is charged in the Police Court with having helped to spirit away a witness who was drinking in a saloon a few days ago. He is alleged to have walked up to an old man named Jess Morgan, who was drinking in a saloon a few days ago, and hit him a blow that broke his nose.

Simmons came up in Justice Morgan's court yesterday for trial, but to the consternation of the prosecution, the old man failed to appear. The District Attorney asked for a continuance and stated to the court that he understood the witness had been spirited away.

"You prepared to make affidavit to that effect?" asked the court. Mr. Beebe said that one of the detectives could make such an affidavit. "Then make your affidavit," said the court. "In the meantime let an attachment be issued for the witness."

Before the affidavit could be made, however, the other side consented that the case should be postponed until Saturday.

After the adjournment of court, Deputy District Attorney Mr. Martin in the hall, and accused her of getting the witness out of the way. She giggled and said, "That's all right."

It is claimed that a friend of young Simmons, and a woman of the town, under the name of Mrs. Martin, before last and got him intoxicated. He disappeared from his room in the St. Charles Hotel, and nobody seems to know where he has gone.

The detectives feel confident of finding him.

Police. The rest of the pool room cases were dismissed in the Police Court yesterday, there being no chance of a conviction, in view of the acquittal of F. Mary Younger was convicted yesterday of battering the young child of a woman on South Horse street. She will appear before Justice Morgan today for sentence.

LOS ANGELES MAN DIES IN ALASKA. SAD NEWS FOR WIDOW AND FIVE LITTLE CHILDREN.

Arrived Jacob Vogel's Homecoming at the Palms, but Will See Him Nevermore—Ulysses Graham of Redondo Perishes in Spawville.

In a modest cottage at The Palms a lonely wife has long awaited the return of her husband from the Klondike; and five little children have been building happy anticipation upon the event upon their father's homecoming from the frozen northland. But there will be no homecoming. The little ones are fatherless now—the anxious wife is a widow and the brave-hearted seeker after the Klondike's hidden treasure lies sleeping beneath its inhospitable snows.

Two years ago Joseph Vogel, well known in Los Angeles as a former resident, returned from a trip to Alaska, but soon the desire to search again for the fabulous wealth drew him on. Placing his family in the home at The Palms, Vogel went to the locked country a second time.

Prospects were bright, and there were visions of a happy return to the Land of Sunshine, when insidious disease fastened upon the man, and his comrades took him to St. Mary's Hospital at Dawson City. A message, many weeks in transit, has just been received by the family, stating that Jacob Vogel died of quick consumption.

He had his life insured before he last trip, so that his family is not left unprotected. His mother and brother, who reside at No. 46 East Twenty-third street, Los Angeles, are now in the city.

## NO ORANGE GROVES THERE.

Little Nuggles From Nome That Strengthen Love for the Merry Sunshine of Southern California.

It's a weird tale that one gets from the Nome Gold Digger, a weekly paper, published at Nome, Alaska. You may now and then read in its columns of a "good strike," but more frequently, much more frequently, the reader is told of diggers where "no color" has been found, or which was a "dead fall from the start," or has suddenly "played out."

"But uncanny is the story of suffering and death, that may be witnessed from the record of weekly events, in the frozen north."

In the issue of January 30, an account is given of the freezing to death of Dr. H. J. Pelton, formerly of Oakland. He thought he had struck a rich claim, after three years of unsuccess effort, and, all alone, was coming into the settlement to tell of his good fortune. He froze to death on the trail with two miles of Spruce Creek. Below are a few paragraphs from the columns of the paper.

"Ola Stowe's companions lost him when a mile of Spruce house, at Sledovitch, in the blizzard of Saturday week, and his body has not yet been found."

"A story comes in that rivals the horrors of the Black Hole of Calcutta, of sixteen men and women huddled together in a cramped and mutilated condition from frost bite, in Sledovitch, unable to lie down, because of starvation facing them. Before two hours elapsed, a dog team was speeding on its way to the claim, laden with food."

"Dan Anderson left Death for Nome a few weeks ago and has not been heard of since."

"Hamilton, Weeks and Munroe were caught in a blizzard, a week ago yesterday, on their way from Mary's Igloo to Sledovitch, and were blown down a precipitous mountain side, sustaining painful bruises, and spent the night in a clump of willows, pounding one another and singing to keep awake."
